A340-300 - A340 Family - Airbus

The A340 cockpit is based on the A320. Photo: Airbus. The main differences between the A330 and A340 are, of course, in the two or four-engine setup. The A340 also has a larger wing and an additional middle rear landing gear. This middle landing gear is unusual; most heavy aircraft use two gears with increased wheels to cope with the extra load.

The Airbus A340 - Everything You Need To Know - Simple Flying

And the A330/340 flight deck was designed for easy transition from the A320, so Northwest could maintain a highly-trained pool of pilots for their full careers. With Airbus' usual aggressive pricing, Northwest inked a deal in March 1987 to be the North American launch customer for both airframes: 20 firm orders for the A340 and 10 option ...

As an international pioneer in the aerospace sector, Airbus designs, manufactures and delivers industry-leading commercial aircraft, helicopters, military transports, satellites, launchers and more.

Airbus - Home - Aerospace pioneer

Airbus built both the A330 and A340 at the same time. Photo: Getty Images. Airbus always planned to build a range of aircraft from small narrowbodies up to four-engined behemoths, to rival US builders like Boeing. But the journey from an idea to creation is different for each aircraft. For the A340, it begins where we left off with the Airbus A320.

Why Did Airbus Build The A340 Family? - Simple Flying

Kingfisher Airlines agrees to buy 15 A350-800 XWBs, 10 A330-200s, five A340-500s and 20 A320 Family aircraft (20 June 2007) Kingfisher Airlines, a current operator of 12 A320 family aircraft, signed a contract to acquire five A340-500s for 2008 delivery (24 April 2006).

The Airbus A340 Family, which is primarily a wide body jetliner, includes four types of commercial planes: namely the A340-200, the A340-300, the A340-500, and the A340-600. This family of plane can carry anywhere between 250 to 360 passengers. Additionally it has two more engines compared to the Airbus A330 Family.

Airbus Aircraft - iFly.com

Apart from the flight deck, the A330 also has the fly-by-wire system common to the A320 family, the A340, the A350, and the A380. It also features three primary and two secondary flight control systems , as well as a flight envelope limit protection system which prevents maneuvers from exceeding the aircraft's aerodynamic and structural limits.
