If you want to take pictures that have a “wow” factor built in them, the Rule of Thirds is the composition secret you need to take advantage of! To use the rule of thirds, imagine four lines, two lying horizontally across the image and two vertical creating nine even squares.

Top 10 Digital Photography Tips | Top 10 Photography Tips

Basic Photography using Digital Cameras As you know, a film camera uses film to save an image. However, the digital camera has a sensor which is positioned behind the lens. When you press the shutter button, the sensor measures the light striking it and creates a digital image much in the same way a photocopier makes a copy of a document.
