Logbooks must be kept on the building premises and made available during the annual inspection of such logbooks by the New York City Fire Department Hi-Rise Unit. So keep up to date log entries of required system inspections and tests to avoid violations. A new logbook must be started each calendar year. All prices include shipping.

Products - NY Fire Consultants Inc.

BS5839-1: 2017 states that the Fire Alarm Log Book should contain certain essential information so that persons conducting regular testing and, in particular, engineers conducting periodic tests, have this information provided to them where they need it, i.e. in the log book. This is essential for fire alarm engineers who cannot be expected to second-guess the original designer's intentions and who need to understand the basis upon which decisions were made at the time of the design.
