Formulation in psychology and psychotherapy: Making sense of people's problems. Formulation is attracting an increasing amount of interest in the fields of psychology, psychiatry, psychotherapy and counselling. Drawing on psychological theory, it attempts to examine a client or family's problems in terms of how they arose and what may currently be holding these in place.

Formulation in psychology and psychotherapy: Making sense ...

Synopsis. Formulation is attracting an increasing amount of interest in the fields of psychology, psychiatry, psychotherapy and counselling. Drawing on psychological theory, it attempts to examine a client or family's problems in terms of how they arose and what may currently be holding these in place. It synthesises this information and explanatory ideas into 'working hypotheses', which are then used to suggest appropriate and effective ways of working to relieve the problems.
